Welcome, Learn About us....

ASCENT FREIGHT LOGISTICS LIMITED

Reliable Clearing & Forwarding services

WHO WE ARE

Ascent Freight Logistics Limited began its operations in 2020 as a clearing and Forwarding outfit, the company is specialized in helping our clients handle their imports and exports in an ever dynamic logistics and transportation industry in East and Central Africa.

The company continuously strives to improve service delivery and adequately adapt to alarmingly changing trends in technology, policy, processes and markets, with sole objective of satisfactorily offering our clients an array of solutions as their businesses demand.

We ensure a smooth and seamless process by early anticipating and eliminating problems that could occur when shipping goods; such as shipment loss or damage, port detention, clearing down-time and non-conformity.

In this, we ensure that our clients receive their goods on time, at the best rates and with the assurance of the best customer experience at all time.

Reliable Clearing & Forwarding services

OUR MISSION

VISION

To be the most efficient and trusted clearing and forwarding company in East African Region and beyond.

Reliable Clearing & Forwarding services

1. CLEARING AND FORWARDING

We offer our clients a one-stop shop solution for all their clearing and forwarding needs. Over the years we have developed professionalism to deal effectively in this line of business. We have assembled together a team of young professionals with relevant training and right attitude to march the demands in this field. We are compliant with all statutory requirements and international standards as stipulated by the International Maritime Authority (IMO) and other International regulatory authorities.

a. Sea Freight (Import & Exports)

As a freight forwarder, we contract through a network of strategically placed agents in various parts of the world who are able to offer our clients competitive freight rates. These services constitute the following:

Full Container Load (FCL)

Bulk Cargo

Less than Container Load (LCL)

Loose Cargo

Our independence enables us to work with a range of ocean carriers, which allows us the flexibility to capitalize on more frequent sailings additional capacity and cost effective freight bookings.

b. Air Freight (Imports & Exports)

When courier or express cargo and sea freight is not appropriate, airfreight could be the option. Acknowledging this need for judicious time management, we offer multiple reliable airline options, which can move your airfreight from ex-work up to final destination anywhere in the world.

c. Custom Clearance Services

We provide full scale imports and exports custom clearance at the Kenyan ports. our customs clearance staff are well knowledgeable and handle the whole process of documentation and regulatory compliance competently.

Reliable Clearing & Forwarding services

2. TRANSPORTATION

We run a meticulous transportation division with fully owned and contracted trucks, for both Local and transit Cargo.

a. Local Transport

We understand the need for timely and safe delivery of every cargo. To ensure this we have developed relationships and efficient processes at the points of Cargo load through out the channels of delivery to ensure we keep this promise.

b. Transit Cargo

We transport transit cargo across east and central African countries. Our Company and trucks meet all standards and requirements as stipulated by regulatory authorities in all the countries we operate in.

c. Special Cargo

All cargo that exceed normal cargo sizes and need special attention in its transportation is categorized as special or abnormal cargo. Such cargo requires special vehicles, extra regulations and special skills to handle, as a player in a market where plenty of that cargo has to be dealt with, we have developed inside capacities to handle such cargo professionally and with minimal or no risk at all. where need bewe offer extra tracking and escort services with proper coordination with security authorities across the transport channel.

Reliable Clearing & Forwarding services

3. LCL CONSOLIDATION

At AFL Ltd we offer monthly consolidation service for all LCL shipments from Kenya. We continuously endeavor to consolidate direct containers to individual regions thereby reducing transit time and costs.

4. WAREHOUSING

we offer tailored and spacious warehousing services and arrangements for our clients which are accessible to both the local and international air and sea ports, to ensure that their cargo is not only safe and secure, but also ready for hitch-free collection and delivery at the specified times.

Word from the C.E.O

Paul N. Kivuva
(Chief Executive Officer)

“Hallo our esteemed customers and partners. Everyone in the logistics business knows very well that it is not easy. Hard deadlines, Delays and system bureaucracies are some of the challenges we face daily.

Despite all these, at AFL, we always put our best, ensuring that customer satisfaction is assured.

Over the time we have harnessed local expertise, technology and lean processes to give our clients world class logistics and freight services. We continually strive to ensure that our services are secure, reliable and flexible all at reasonable prices.

With the Kenyan government policy that all containerized cargo headed to Nairobi be transported via the SGR, we have adjusted adequately and opened a fully fledged office in Nairobi, from which we are better placed operationally to deliver effectively.”

Leverage on our knowledge and expertise in handling your imports and export, we promise to make it exciting, time saving for you and hitch-free.

We allow you to continue with your normal business while we take care of the clearing and logistics hassles and keep you informed at every step.
